

MORTEN HAGLAND HANSEN

Technology Executive

BIOGRAPHY

Morten Hagland Hansen has extensive experience in the remote communications and IT services industries. He is currently serving as Senior Vice President Engineering & Operations at Infrastructure Networks, Inc. (iNet), where he is responsible for managing iNet's extensive 4G LTE / 5G NR terrestrial wireless network that enables companies to achieve the full range of benefits from a digital transformation of their field operations.

Before this, he was responsible for the commercial maritime and energy markets revenue growth at SES Networks, a business unit of SES (EURONEXT: SESG), the leader in global content connectivity solutions, who operates the world's only multi-orbit constellation of satellites. Before that, he was the Senior Vice President and Chief Technology Officer at RigNet (NASDAQ:RNET), a leading global provider of remote communications solutions to the oil and gas industry.

He has served in several key leadership roles, responsible for overall technology strategy and overseeing global sales, marketing, product, and solutions development and operations over his long tenure. In addition, he has over 20 years of experience in information technology and telecoms engineering, design, and deployment.

Morten is recognized as a visionary leader who can connect the gap between technology and monetization. He is also an Executive Producer for the award-winning film Zen Dog. In addition, Morten has completed an executive education course in customer-focused innovation at Stanford University's Graduate School of Business and holds an MBA from BI Norwegian Business School.
